THE BARGAIN WITE PATTERSON.

A Card from Representative Greene. COLUNBIA, January 29.

To the Editor of the Columbia Union: Being confined to my room and bed for several days from a severe cold, I was unable to vindicate myself in the House of Representatives Tuesday, as others of our delegation did, promptly, from a charge made in the editorial columns of THE CHARLESTON NEWS of the 27th instant. In the article alluded to. the whole of the Charleston delegation are

accused of having made a bargain with Mr.

Patterson by which he secured their votes.

Now. Mr. Editor, as I have the honor to claim membership in said delegation, by the honest soffrages of the people of our county. I think I owe it to them to promptly faisly such a report by challenging any human being on earth (whose oath can be believed) that I ever entered into any arrangement at any time in my life, with any office-seeker or friend or agent of such, by which my vote was obtained, unless dictated by my own ludgment and for the public good. And in voting for Mr. Patterson I was actuated solely by the ballef that he was more energetic, more enterprising, and a better business man than any of his competitors. He also brought capital to this State, and I know of no man who could be elected to the United States Senate from this State that will work more vigorously to induce the government to give us aid in improving our harbors, flaishing our customhouse and promoting other internal improvements than J. J. Patterson.

I feel, Mr. Editor, that I have trespassed too much on your space already. I should not have noticed the allegation at all were it not brought to notice through the columns of a widely circulated journal, and one that represents a large share of public opinion.

Let the editor of THE NEWs have a speedy investigation before the courts, and I am sure the Charleston delegation will not object. Very respectfully,

JAMES F. GREENE, Of the Charleston Delegation.

FIRE ON ADGER'S WHARF.

At nine o'clock yesterday morning a fire broke out in the type sample room on the third floor of Messrs. Gibbes & Co.'s tactorage on Adger's wharf. The engines and hook and ladder companies responded to the alarm and succeeded in mastering the flames, though only after the whole top floor had been consumed. The loss in type samples, which collection dated as far back as 1860, is between fiften hundred and two thousand dollars, on which there is no insurance. The damage to the building will amount to about one thousand or fifteen hundred dollars, which is fully insured. All the books and papers belonging to the firm were saved by the generous assistance of the public, to whom Messrs. Gibbes & Co. beg to offer their sincere thanks. The fire is supposed to have originated in a defective flue of the chimney, and thus communicated to the roof, as the room door was locked, and no one had been in there since the close of business on the day previous. The premises were owned by Messrs. Gibbes & Co. Adger's building, next door, was slightly damaged. The principal and his clerks were all in their respective apartments when the fire occurred. Messrs. Colburn & Co., agents for the "Underwriters Insurance Company," in which Gibbes & Co. were insured, have, with their usual promptitude, set about repairing the damaged building, and contractors are already bringing in their estimates for the work. Messrs. Gibbes & Co. expect to resume their old quarters in ten or fifteen days'

BUSINESS NOTICES.

A THRIVING ESTABLISHMENT.-The boulevards of Charleston have seen many changes in the last decade, but perhaps the most pleasing was the transformation of the dingy brick structure at the portheast corner of Wentworth and King streets into the ornamental building occupied by Messrs. Menke & Muller. These gentlemen have initiated a revolution in the clothing business of the city, and their stand has already become one of the landmarks of King street. It is known to fame as the emporium of fashion, where the reener sex can be supplied with everything needful for the comfort and adornment of his person. Messrs. Menke & Muller have utilized their entire establishment, and offer a stock of clothing and men's wear that defles competition. Their goods are warranted to fit, and in moderate demand, showing a part of the day their customers are always among the best dressed persons in the community.

A NEW DEPARTURE IN MEDICINE.-It is difficult to induce the medical profession to abandon the old grooves in which it has travelled for centuries. Purgation, venesection, orlumization and blisteration are its team of venerable hobbles, and it does not like to harness up the new four-in-hand of invigoration, regulation, purification and renovation, and take a new departure. Advanced practitioners, however, who are not wedded to old dogmas, admit that in Hostetter's Stomach Bitters we possess, so to speak, a counter charm to the malign influences that produce various diseased conditions. They do not deny that in cases of general debility, in nervous complaints, and in all disturbances of the liver, the bowels, and the digestive organs, this powerful and wholesome vegetable remedy effects extraordinary cures. The public rendered this verdict many years ago, and the enlightened members of the profession acqui-
